- Save the date for Fespa Berlin 2022!
- Info doc: F Series upgrade possibilities in a nutshell

**Welcome to
Fespa Berlin 2022**

31 May - 3 June

Welcome to Fespa Berlin 2022

Soon it will be that time of the year again: Fespa time! As the Fespa 2022 edition is fast approaching, you can start planning your visit. We hope to welcome you to our **stand C48** in **hall 3.2** in the Messe Berlin from the 31st of May to the 3rd of June.

You can register your visit via the link below to obtain a free entrance ticket. Moreover, you are kindly invited to a breakfast meeting on **Tuesday, May 31, from 7:45h to 9:15h** in Hotel Scandic Berlin Kurfürstendamm. Save the date! More information to follow soon.

Summa DC Series Notice

Re-use of iButtons

Re-use of used iButtons in Summa DC ribbons

Due to a shortage of iButtons, Summa will temporary enable the re-use of used (depleted) iButtons. To accomplish this a firmware change of the DC printer/cutter is necessary. Customers can update their DC printer/cutter firmware [via the instructions in this service aid.](#)

Summa F Series Upgrade Possibilities

A short summary

F Series Upgrade Possibilities (short summary)

To perfectly align the Summa F Series with your customers' future projects, applications and aspirations, Summa provides a wide arsenal of F Series upgrade possibilities to choose from. Then, smart upgrades and options that match perfectly with the F Series hardware and software will undoubtedly enhance the performance and efficiency of the F Series' user workflow.
