

US61 UV Inks for XpertJet 1462UF

The Mutoh US61 series environmentally-responsible all-round UV inks are flexible and highly scratch-resistant. These four colour plus white and varnish UV inks deliver ultra sharp high quality output on transparent and coloured substrates, plus multi-layer prints including braille as well as spot varnish effects. The inks are delivered in 800 ml ink packs.

US61 inks are a sustainable choice, as they meet meeting the latest as well as the expected near future EU regulations related to the use of chemicals substances.

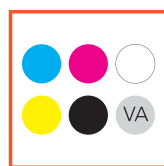

They are suited for high quality prints onto onto both objects as well as a wide variety rigid substrates including ABS, wood, alu composite board, PC, PE, PET, PMMA (acrylic), PP, PS, PVC.

Unleash your creativity and discover numerous new application possibilities!
