Aluminium table plates on the F1612

Summa introduces aluminium table plates on the **F1612 units**. With the change, materials can now also be placed in the centre or left instead of only aligning to the right. The new part number is F1612-4X. You can find more information in the Service Aid that was sent to your technical department on February 3.

MySumma update

You can find updated files of the price lists in the portal. There are no price changes:

- Part number F Series 4X-type
- Spare part updates related to the aluminium vacuum plates.
- Some new spare parts for the roll cutters.
